**Visual Effects Society Announces Nominees for 20th Annual VES Awards
*Dune Leads the Feature Film Field; Encanto is the Top Animated Contender;
Loki Leads the Broadcast Field***

Los Angeles (January 18, 2022) – Today, the Visual Effects Society (VES), the industry’s professional global honorary society, announced the nominees for the 20th Annual VES Awards, the prestigious yearly celebration that recognizes outstanding visual effects artistry and innovation in film, animation, television, commercials and video games and the VFX supervisors, VFX producers and hands-on artists who bring this work to life. This marks the Society’s 20th VES Awards program, and is being celebrated during the organization’s milestone 25th Anniversary.

DUNE leads the feature film field with six nominations. *ENCANTO* is the top animated contender, also with six nominations. *LOKI* leads the broadcast field with four nominations. Nominees in 25 categories were selected by VES members at 27 virtual nomination events conducted across the globe. Awards will be presented at the 20th Annual VES Awards. Note: due to the ongoing pandemic, VES is still considering the format and timing for this year’s show; more information is forthcoming.

"As we celebrate the Society's 25th Anniversary and 20th Annual VES Awards, we're honored to keep shining a light on remarkable visual effects artistry and innovation," said Lisa Cooke, VES Chair. "In all of our nominees, we see best-in-class work that elevates the art of storytelling and exemplifies the spirit of adaptation and ingenuity -- talents that have kept audiences engaged and uplifted, now, more than ever. The VES Awards is the only venue that showcases and honors these outstanding global artists across a wide range of disciplines, and we are extremely proud of all our nominees!"

"Autodesk is proud to sponsor the Visual Effects Society Student Award again this year, celebrating the next generation of groundbreaking filmmakers and artists," said Jocelyn Moffatt, Industry Marketing Manager, Media & Entertainment, Autodesk. "Each year, I'm excited to see how young creatives are pushing the envelope. The level of creativity, imagination and technical skill shown by all of this year's submissions is truly remarkable. Autodesk extends a big congratulations to this year's student nominees."

The nominees for the 20th Annual VES Awards in 25 categories are as follow:

OUTSTANDING VISUAL EFFECTS IN A PHOTOREAL FEATURE

About the Visual Effects Society

The Visual Effects Society is a professional global honorary society dedicated to advancing the arts, sciences and applications of visual effects and to upholding the highest standards and procedures for the visual effects profession. It is the entertainment industry's only official organization representing the extended global community of visual effects practitioners, including supervisors, artists, producers, technology developers, educators and studio executives. VES' more than 4,000 members in over 40 countries worldwide contribute to all areas of entertainment – film, television, commercials, animation, music videos, games and new media. To learn more about the VES, visit www.visualeffectssociety.com and follow us on Twitter @VFX Society. Read our award-winning signature publication *VFX Voice* at www.vfxvoice.com.
